Oh, the robin will be bringing 'em a little share o' spring! When the bud begins to awaken pretty soon.

Though the skies are dark and dreary, An' the sunshine seems so far away, He will come along an' sing his little tune.

He's a comfortin' reminder That the world will soon grow kinder, And the weather prophesies a change in style.

With a cheerful disposition He will change his complexion, An' be singin' "fair an' warmer," after while.

Oh, he ain't so influential, Though his airs seem consequential, But he offers a reminder straight and strong; That the hour that seems so weary With its storm clouds dark and dreary, Must be followed by the blossom and the song.

OLD THUMB TO NOSE AN INSULT

COURT CITES HISTORY IN RULING THAT TWIDDLING FINGERS WARRANTS A FINE

WARNS AGAINST THE OFFENCE

Pointed Out that a Good Many Symbols are More Expressive than Words.

Brooklyn, N. Y.—It is disorderly conduct and an action subject to fine for anyone to put his thumb to his nose and twiddle his fingers in the direction of anyone who doesn't please him. That was what Morris Gerstenfeld of 553 Prospect Avenue, Brooklyn, learned from Magistrate Naumer in the Flatbush Police Court after he had indulged in the thumb and nose practice toward John Shannon, a broker who had incurred his enmity. He was fined \$25.

Gerstenfeld appealed Magistrate Naumer's decision to Kings County Judge Robert H. Roy, and in an altogether entertaining opinion Judge Roy sustained the decision. Gerstenfeld and Shannon, neighbors had had a difference regarding some subject and to relieve his feelings Gerstenfeld fell into the way of greeting Shannon each morning as they met on the sidewalk with his thumb and twiddling fingers. Finally Shannon entered a complaint against Gerstenfeld. But listen to Judge Roy:

"Dr. Holmes, that delightful wit and philosopher of a former generation, remarks that there are a good many symbols that are more expressive than words.

"In the Knickerbocker History of New York we read that when William the testy sent an expedition to treat with belligerent powers the Ambassadors who accompanied the expedition demanded the surrender of the fortress. In reply the Watchmeister applied the thumb of his right hand to the end of his nose and the thumb of his left hand to the little finger of the right, and spreading each hand like a fan, made a flourish with his fingers.

"No breach of the peace ensued but this was apparently owing to the fact that the Ambassador was ignorant of the significance of the Watchmeister's salutation. It is, however, recorded that the practice became widely spread and that up to the author's day the thumb to the nose and the fingers in the air is apt to be a reply made by tenants to their landlord when called upon for any long arrears of rent.

"The practice still persists and is not limited to tenants who are indisposed to pay their rent. Among boys it serves as a harmless vent for injured feelings which lack the proper vocabulary to relieve themselves through audible speech. But when boys become men they should put away childish things.

"In the case at bar the circumstances attending the enactment of the nasal and digit drama aforesaid tend to show a design to engender strife.

Moreover the defendant had committed the same offense toward the complaining witness on previous occasions, thus indicating a determination to annoy him to the limit of patient endurance.

"Under the circumstances disclosed I am satisfied the magistrate was fully warranted in reaching the conclusion he arrived at and I therefore affirm the conviction."

Some people are so conventional that they will eat frog's legs only in leap year.
